Staff who observes a low-level rule infraction may provide an immediate low-level sanction as outlined in this handbook. The staff issuing the sanction will document this occurrence on a Behavior Report. The report is then forwarded to the Sanction Committee for review and quality assurance. Should no further action be warranted, the report will be placed in your case file. If the Committee determines that an additional sanction is warranted, you will be informed of such and told of the next time Sanction Committee meets. (See below for additional information for Sanction Committee)

Should you engage in a moderate or a high-level infraction, staff will confront, stop, or redirect the rule breaking behavior and document it with a written Behavior Report (incident report). The staff writing the report will notify you that you have been written up and the infraction you are being written up for, unless it is not in the best interest of you due to your current mental or emotional state. In these situations, your Case Manager, Shift Supervisor, or a member of your House will inform you of the write up once you have had adequate time to regain your composure. Except in the instances where you are not immediately informed of the write up, the staff issuing the report will inform you when you will meet with Sanction Committee; therefore, providing you time to prepare for your meeting with the Committee.

Sanction Committee meets at least three times weekly. You will be summoned to the office where Sanction Committee is held. A member of the Committee will process with you the circumstances outlined in the Behavior Report. You will be given the opportunity to respond, which may include presenting evidence supporting why you do not agree you committed the rule infraction.

Should you present information that is in direct conflict with the Behavior Report, the new information will be fully investigated to ensure all elements are taken into consideration prior to delivering the sanction.

The conclusion and actions of the Sanction Committee will be processed with you and entered on the Behavior Report, dated and entered into your case file. You may request, for your personal record, a hard copy of the Behavior Report that includes the written final decision of the Committee. All corrective disciplinary sanctions will correspond with the infraction/sanction list as outlined in this handbook.

You have the opportunity to seek the assistance from your assigned Case Manager or “House” members to assist you throughout the disciplinary process.

Should you want to appeal the final decision or refuse to carry out the issued corrective disciplinary sanction, the Sanction Committee will seek the assistance of the Deputy Director, Clinical Director, or the Executive Director who will serve as the mediator and his/her decision will be final.

Resident Accounts/Budget Process:

As a general rule of this facility, you are not permitted to have money in your possession, therefore a Resident Account System has been set up. All monies must be turned over to be placed in an account set up in your name. As noted on page 20, there are four (4) ways in which monies may be received into your Resident Account. Monies being sent in must be in the form of cash or money order.

Monies in your Resident Account may be used to purchase commissary items, including phone time, or pay for legitimate expenses approved by your Treatment Team. Your Resident Account will be managed in cooperation with the Treatment Team.

Resident Account balances may not exceed \$150.00. Should your account go over the \$150.00 limit without prior approval from the Treatment Team, you will be notified and will work with your Treatment Team to become compliant with the \$150.00 limit by doing one of the following:

- Identify the name and address of a loved one or support person to whom a check will be mailed.

- A check will be created and made payable to you and secured until your release from the program.
- Locking your account to prevent any further deposits.

You and your Case Manager will develop a budget that will identify how the funds will be used. In certain situations, your Treatment Team may approve your support system to add a fixed amount of money to your Resident Account to pay for expenses. Your budget may include paying your court ordered financial obligations (fines, child support, etc.), contributing to your family household expenses, and paying other bills and personal expenses.

Account withdrawals must have prior written approval of the Case Manager. Upon release, the balance in your account will be given to you.

Authorized Leave:

As a resident of NEOCAP, you may become eligible to move unsupervised within the community for the purpose of addressing: business, family, legal, religious, and other program related matters. When eligible, you will be granted passes by your case manager.

Authorization for you to be granted leave will be determined by the House (consisting of facility staff). The house will determine actual hours of your leave based on your custody level, need, performance, progress on program plan, length of residency, and overall suitability for release into the community. The four levels of custody and corresponding leave eligibility are as follows:

- Level 1 (Red) – Ineligible for unsupervised community leave.
- Level 2 (Orange) – Eligible for passes.
- Level 3 (Yellow) – Eligible for passes.
- Level 4 (Green) – Eligible for passes.

You will be searched and may be given a urine test upon returning from business leave.

Public or private transportation, when approved, will be arranged by you and coordinated with facility staff. Once given permission to arrange for private transportation, you must provide facility staff with the name and relationship of the individual supplying the transportation, make and model of the vehicle to be used, registration (license plate number) displayed on the vehicle, and proof of liability insurance before final approval will be given.

Facility provided employment transportation will be arranged initially with assistance by facility staff. However, when at all possible, this arrangement must be replaced within the time frame determined by your Case Manager by suitable alternatives, either public or private.

If you own or wish to make use of a vehicle, you must provide the following before approval will be considered: (1) Proof that you hold a valid Ohio motor vehicle operator's license (2) Proper registration of your motor vehicle (3) Proof of liability insurance, as determined by State of Ohio on the vehicle in question (4) written consent for you to use the vehicle if it is owned by someone else.

You are subject to being searched at any time. Unannounced searches of living quarters and/or other areas of the facility will also be conducted periodically by facility staff.

Any contraband found in your possession or quarters will be seized and will result in disciplinary action being taken. Refusal to cooperate with facility staff will result in further disciplinary action.

Smoking in the facility is strictly prohibited and is in violation of Ohio State Law 3794.01.

Conflict Resolution:

If you have a conflict with another resident or your participation in the program, you are to discuss it with your Case Manager to arrive at a solution. Your Case Manager will determine what solution may occur.
